Product and packed weight _____

Required inner L x W x H / units _____

Insert and clearance _____

Order quantity / destination _____

Paper, logo position and finish _____

Before submitting artwork

1. Measure the product and allow room for the insert and removal.
2. Request the approved full-size dieline for your dimensions and board.
3. Use the cut, crease, bleed and safe-area layers on that supplied file.
4. Check logo direction, closure alignment and fit on a physical sample.

Planning reference only. Not to scale or suitable for cutting or production.
